Next meeting: TBA

## 1. Introduction and purpose by Dr. Wall

Dr. Wall welcomed and thanked everyone for attending. She then explained the purpose of the meeting and the intent of the committees. Dr. Wall went through a brief timeline from conception to construction to move in for the new campus. The anticipated move in date is Fall 2019. We also viewed a video titled, "Why" provided by Dr. Shuman.

## 2. Discussion

We then broke out into two groups, alignment and facilities. Bob Atkins led the facilities the breakout discussion for facilities and Dr. Shuman led the alignment discussion.

- A. Facilities discussion included information on properties, architects, and the activity. The activity instructions were to make a table with 3 columns. In the first column list all items you would like to see in the new school if the "Sky were the Limit". In the second column list all "Must Have" and the third column "Don't like". The groups were given time to brainstorm. We briefly discussed the items listed. Bob closed the meeting and allowed everyone to look at the architect property renditions of the school. He also answered participant question.
