## TECHNOLOGY SERVICES

### Document Camera Installation

#### INSTALLATION “LADY BUG” DOCUMENT CAMERA

#### Connect to PC/Laptop (VGA Cord)

1. One end of the VGA Cord goes into a Computer Monitor or Laptop – VGA Out
2. The other end of the VGA cord goes into the Document Camera DVI Out/VGA IN.
3. It may need a DVI to VGA adapter attached to the document camera that the VGA cord will plug into

#### Connect to Projector (VGA Cord)

1. One end of a VGA cord will go into the Wall Plate connection. This comes from the back of the projector
2. The other end should be plugged into the Document camera VGA Out

#### Connect to Interactive Monitor (USB Wall Plate)

1. One end of the USB cord goes into the USB Wall Plate next to the Video Plate
2. The other end goes into a USB drive on the computer or laptop

#### Audio to Interactive Monitor (Audio cord)

1. One end of the Sound cable goes into the Video Plate on the wall
2. The other end goes into the Computer or Laptop Audio jack
