We discussed how students not eating Breakfast at the Jr. High and how it can effect testing scores.

The nursing department has implemented the changes regarding documentation by better utilizing Skyward. The high school and Jr. High clinics started entering all student visits into Skyward and now all clinics are entering visits into Skyward. This includes injury reports and medications. Kubacak was only entering students that they sent home and injuries but now all students are being entered. This is still a work in progress.

We talked about IHPs (Individual Health Plans) and will add to these as needed.
